Emergency Drills School Year 2018-19

As required by law, Regina High School completes the following emergency drills annually: five fire drills, three shelter-in-place drills, and two tornado drills. Guidelines on the timing of the various drills are mandated. One practice must take place during lunch, an assembly, or a period when a significant number of students are not in a regular classroom. The dates and times of these drills are provided to the Macomb County emergency management coordinator. Further, the law states that confirmation of the drills must be posted on the school website.

For the **2018-19** school year, Regina High School has successfully completed the following drills:
