

ACT Preparation Course

This 7 session course will prepare students for the April 13th, 2019 ACT Exam.

Course Schedule: Mondays: 3:00 - 4:30pm

Class 1 (February 11th) ACT English

The English class will focus on content and strategy applicable to the ACT English test. We do review grammar, but we're also going to demonstrate how the grammar is tested on the ACT, and what strategies may apply when you see certain types of questions. For example: the ACT tests commas, but when they do, the correct answer tends to have fewer commas than the other choices, not more.

Class 2 (February 25th) ACT Math (Don't forget a calculator!)

The Math class will focus on the math skills most often tested on the ACT. We will review topics such as: percents, slope of a line, factoring, and Trigonometry. We also demonstrate how math concepts learned in school often look "different" when tested on the ACT and show students how to prepare for these questions. In addition, we examine key formulas students will need to have memorized, discuss calculator usage, and explain strategies applicable to the math test.

Class 3 (March 4th) ACT Reading

The Reading class will discuss various reading strategies (should you read the story or part of the story or go right to the questions first) and help students find a technique that best fits their strengths and weaknesses. An emphasis on timing strategies and question types will also be discussed.

Class 4 (March 11th) ACT Science

The ACT Science test does not actually test science knowledge! the science facts and data are given in each passage. Therefore, this class will focus primarily on various passage formats, question types, and timing strategies. We also discuss how to interpret the graphs, charts, and tables often seen on the test.

Class 5 (March 18th) ACT Practice Test Part 1 (Don't forget a calculator!)

The ACT is a 3 hour test. The class is an hour and a half. In order to administer an entire ACT without assigning homework (you have enough of that already) we will do half the test this session and the other half during the next session.

Class 6 (March 25th) ACT Practice Test Part 2 (Don't forget a calculator!)

Class 7 (April 1st) ACT Final Test Review

In the final class we review the practice test given and answer students' questions, reviewing major concepts discussed throughout the course. We also do a final review of the course.

- The cost of the program is \$200. All course materials as well as supplementary materials are included.
 - All sessions will be held at Regina High School. Room number will be announced.
 - Students should bring a calculator and something to write with.
 - Any questions about the course should be directed to Scott Allen at College Quest: 248-647-8378, or email to SAllen2556@gmail.com
 - Please be aware that the nature of this course allows no tolerance for disruptions in class - we have a particular aversion to students "texting" in class, so beware! Students are asked to arrive early enough so that class may begin promptly at 3 pm.
-

To Register: Fill out this form and drop off at Regina High School Spirit Shop. Make check or money order for \$200 payable to Regina High School. Registration deadline is Monday, Feb. 4th, 2019
